

Cybersecurity Incident Response Plan and SOP

This SOP provides structured procedures for detecting, responding to, and recovering from cybersecurity incidents.

Incident classification: Incidents are categorized from Level 1 (Low) to Level 4 (Critical). SOC must be alerted within 15 minutes of detection.

Forensics and Auditing: The incident team must collect and preserve system logs. Under no circumstances should audit logs be modified or deleted.

Review and Updates: The incident response plan must be reviewed annually and updated to incorporate lessons learned from tabletop exercises.
